Necessary Information for Initial Visual Estimates (READ CAREFULLY):

This estimate may have been completed based wholly or in part using photographs and/or video. Because this is an initial visual estimate, this estimate may not be complete, as there could be additional hidden damage that will increase the cost of the estimate. Hidden damage can only be found during the disassembly / teardown phase. If the shop finds additional damages or undiscovered damages, the estimate will be updated in the form of a supplement. Through the supplement process the damages discovered will be reviewed and approved prior to repairing the vehicle. In the event that you are not repairing your vehicle and believe that our estimate does not account for all of your damages, please contact your estimator or Claim professional to discuss and address your concerns and options.

This will serve as notification that the act of disassembly / teardown might prevent the restoration of the vehicle or component to the condition in which it was provided by the customer, if applicable. CCR § 3353(c)(1)(C)
